EDUCATION

University of Westminster, UK 2025-2028
BSc (Hons) Computer Science

Eurasian Campus 2026
(Affiliated with Nile University of Science and Technology, Mogadishu)
Diploma in Psychology and Counselling

Informatics Institute of Technology 2024
BSc (Hons) Computer Science – Foundation

University of Colombo
School of Computing 2024
Certificate in Java Application Development

Institute of Human Resource Advancement (IHRA), University of Colombo 2024

Kalutara Balika National School 2010-2023
Completed G.C.E. Ordinary Level (O/L)
G.C.E. Advanced Level (A/L) in the Science Stream

WORKSHOPS & TRAINING

- IIT UX Design Workshop (IX) – 2025
- AI Foundations Training – LinkedIn Learning
- IT Security Fundamentals Training – LinkedIn Learning

PROFILE

A second year Computer Science undergraduate with strong foundations in software development and emerging technologies. Experienced in developing applications using Python, Java, and web technologies including HTML, CSS, and JavaScript. Passionate about building efficient and user-friendly solutions through full stack development, machine learning concepts, and cybersecurity principles.

Demonstrated ability to work collaboratively through academic and group projects, with experience in UI/UX design using Figma and developing responsive web applications. Actively engaged in extracurricular activities and volunteer initiatives, developing leadership, teamwork, and communication skills.

Seeking an internship opportunity to apply technical knowledge, enhance practical experience, and contribute to innovative technology driven projects.

PROJECTS

TECHNI - On-Demand Service Platform (Customer & Worker Apps) 2026

Software Development Group Project (SDGP) – IIT

- Developed two Flutter mobile applications: TECHNI Customer App and TECHNI Worker App to connect users with skilled workers such as plumbers.
- Built backend APIs using Node.js and Express.js and integrated Firebase Authentication and Firestore.
- Implemented features including OTP login, worker dashboard, job request management, and service booking system.

Tech Stack: Flutter, Dart, Node.js, Express.js, Firebase, GitHub

EliteWingTravels - Travel & Tourism Website (Group Project) 2026

Developed a professional and fully responsive travel and tourism website focused on promoting destinations in Sri Lanka. Collaborated with a team of three members to design and implement features such as tour package listings, fleet showcase, interactive maps, and an online inquiry system. Designed with a modern white and blue theme to enhance user experience and accessibility.
Technologies: HTML, CSS, JavaScript, Responsive Web Design

EasyLife On Demand Service Mobile App (Group Project) 2025

Mobile platform connecting users with service providers, featuring real-time tracking and booking system.
Implemented GPS tracking and user authentication
Built rating system and push notifications Technologies: Flutter, Firebase, Google Maps API, GPS Integration

SkillNest - Educational Platform (Group Project) 2025

Interactive web-based learning platform with course catalog and progress tracking.
Built responsive design with interactive quizzes - Implemented progress dashboard and certificates Technologies: HTML, CSS, JavaScript, Local Storage

SKILLS

- Programming:
  Python, Java, JavaScript
- Web Development:
  HTML, CSS, Responsive Design
- UI/UX Design:
  Figma, Wireframing, Prototyping
- Tools:
  Git, VS Code
- APIs & Technologies:
  Firebase, Google Maps API, GPS Integration
- Basic Knowledge:
  Machine Learning, Cybersecurity Concepts
- Public Relations
- Time Management
- Effective Communication
- Teamwork & Collaboration
- Problem Solving
- Critical Thinking

LANGUAGES

English
Sinhala

Advanced Calculator - Java Desktop Application 2025

Feature-rich calculator with scientific functions and calculation history.
Implemented arithmetic and scientific operations
Added memory functions and GUI interface Technologies: Java

Quiz Application 2024

Interactive web-based quiz application testing HTML, CSS, and Python knowledge.
Implemented 30 second countdown timer per question with real time score tracking
Developed progress bar and comprehensive answer review system
Built with modern, responsive interface using HTML, CSS, and JavaScript

CERTIFICATIONS

- Flutter Essential Training: Build for Multiple Platforms | LinkedIn Learning – Pooja Bhaumik (2026)
- Certificate Course in English Language (Higher Level) | Institute of Human Resource Advancement (IHRA), University of Colombo (2025)
- Java Application Development | University of Colombo School of Computing (2024)
- Artificial Intelligence Foundations: Machine Learning | LinkedIn Learning (2025)
- Python Data Analysis LinkedIn Learning – Michele Vallisneri
- IT Security Foundations: Core Concepts | LinkedIn Learning (2025)
- Python Essential Training | LinkedIn Learning – Ryan Mitchell (2026)
  Completed training covering Python programming fundamentals with practical coding challenges provided by CoderPad.
- Advanced Python: Object-Oriented Programming | LinkedIn Learning (2025)
- Python GUI Development with Tkinter | LinkedIn Learning (2025)
- Hands-On Introduction to Python (Ronnie Sheer) | LinkedIn Learning (2025)

EXTRA -CURRICULAR ACTIVITIES

- LEO Club Member (IIT) 2026 Present
- IEEE Volunteer (IIT) 2026 Present
- SHERlock 3.0 Challenge Participant 2026
- Volunteer – Skill Up 4.0 2026
- Participated in the IIT UX design workshop (IX) 2025
- LEO Club Member (Kalutara Balika National School) 2020 -2022
- An Environment pioneer (Parisara Niyamu) 2018
